PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Engineering student at SSUET with strong expertise in software development, AI-based applications, and full-stack web development. Skilled in Python, Java, JavaScript, React.js, Node.js, Firebase, and Android development. Experienced in developing AI-powered systems, web applications, and algorithm-based projects with a strong passion for problem-solving, innovation, and emerging technologies.

EDUCATION

BS Computer Engineering – Sir Syed University of Engineering & Technology (SSUET) Oct 2023
– Present | 6th Semester | CGPA: 3.72

Intermediate (Computer Science) – Govt. Gulshan Degree College 2021 –
2023 | 81%

Matriculation (Science Group) – North Star Public School 2019 –
2021 | 84%

TECHNICAL SKILLS

- Python, C, C++, Java, JavaScript
- HTML5, CSS3, Bootstrap, React.js
- Node.js, Express.js, Flask
- Firebase, Microsoft SQL Server, MySQL
- Android Studio, Java, XML
- AI, Machine Learning, NLP
- Data Structures & Algorithms (DSA)
- OOP, Database Fundamentals
- REST APIs, Chart.js
- Git, GitHub, VS Code
- Cloud Computing Basics
- PDF Processing, ATS Analysis
- spaCy, pdfplumber
- Problem Solving & Analytical Thinking

PROJECTS

- **AI Resume Analyzer & ATS Matching System** – Developed an AI-powered resume analysis platform using Python, Flask, spaCy, and SQL Server with ATS scoring, skill extraction, resume suggestions, and dashboard analytics.
- **Donation Management System** – Built a full-stack donation management web application using Node.js, Express.js, SQL Server, Bootstrap, and Chart.js with admin authentication, campaign management, donation tracking, and analytics dashboard.
- **AI Assistant Chatbot** – Developed an AI-powered chatbot integrated with APIs and intelligent assistant functionality for automated user interaction and real-time responses.
- **Student Management Web Application** – Built a modern student management system using React.js, Firebase, JavaScript, and Bootstrap with authentication and real-time database integration.
- **AI Pacman Game** – Implemented Dijkstra's Algorithm and heuristic-based enemy AI for intelligent pathfinding and gameplay mechanics.
- **Online Shopping Website** – Developed a responsive e-commerce website using HTML, CSS, JavaScript, Dreamweaver, and XAMPP with login, cart, and checkout functionality.
- **Income Tax & EMI Calculator App** – Created an Android application using Java and XML featuring authentication, tax calculation, EMI calculation, and user-friendly UI modules.
- **Car Showroom Management System** – Built a C++ console-based management system for vehicle inventory, customer records, and transaction handling.

CERTIFICATIONS & COURSES

- Microsoft Azure AI Essentials: Workloads and Machine Learning on Azure – Microsoft
- Advanced Python – LinkedIn Learning
- Microsoft SQL Server 2019 Essential Training – CompTIA
- DevOps Foundations – Project Management Institute (PMI)
- IT and Cybersecurity Risk Management Essential Training – IIBA
- Career Essentials in GitHub – GitHub
- Java Foundations Professional Certificate – JetBrains
- Microsoft Azure Essentials Professional Certificate – Microsoft & LinkedIn
- JavaScript Classes – LinkedIn Learning
- Excel: Introduction to Formulas and Functions – LinkedIn Learning

SOFT SKILLS

- Communication Skills
- Problem Solving
- Analytical Thinking
- Team Collaboration
- Leadership Skills
- Technical Report Writing
- Time Management
- Critical Thinking
- Adaptability
- Presentation Skills
- Creativity & Innovation
- Quick Learning Ability

LANGUAGES

- English – Fluent
- Urdu – Native
